### Comments:

I support this bill. We imported over 50,000 pounds of goat meat from Australia and 135,000 pounds of sheep BUT we have our own supply and stock here. But our mentality here is that our free-range goats on Maui and Big Island are a nuisance. However, this is the same kind of goats and sheep from Australia : wild-free-range-natural-locally grown. Let's work together and bann import of Australian goat meat so that we can open up a worldwide export market for Hawaiian goat and sheep meat.
